Extar Gradients

linear Gradients

Light Style

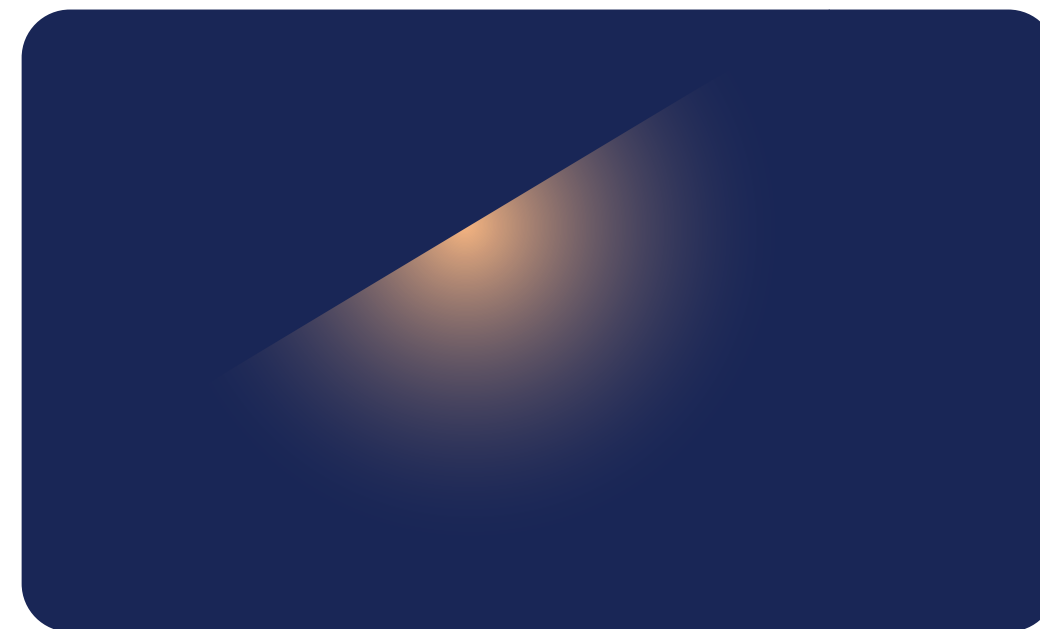

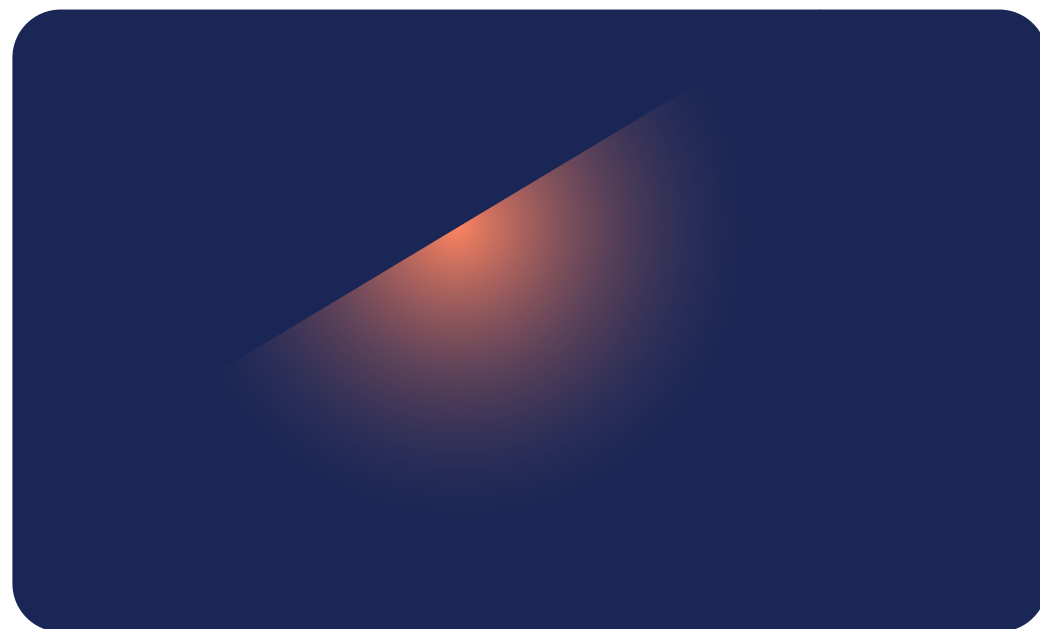

This gradient system features a collection of linear gradients with smooth transitions between two colors, showcasing a versatile range of combinations. The gradients are applied at a 45-degree angle.

Extar Gradients

Angle Gradients

Use one color, and cut at an angle similar to the logo.
In this case, the background should be dark.

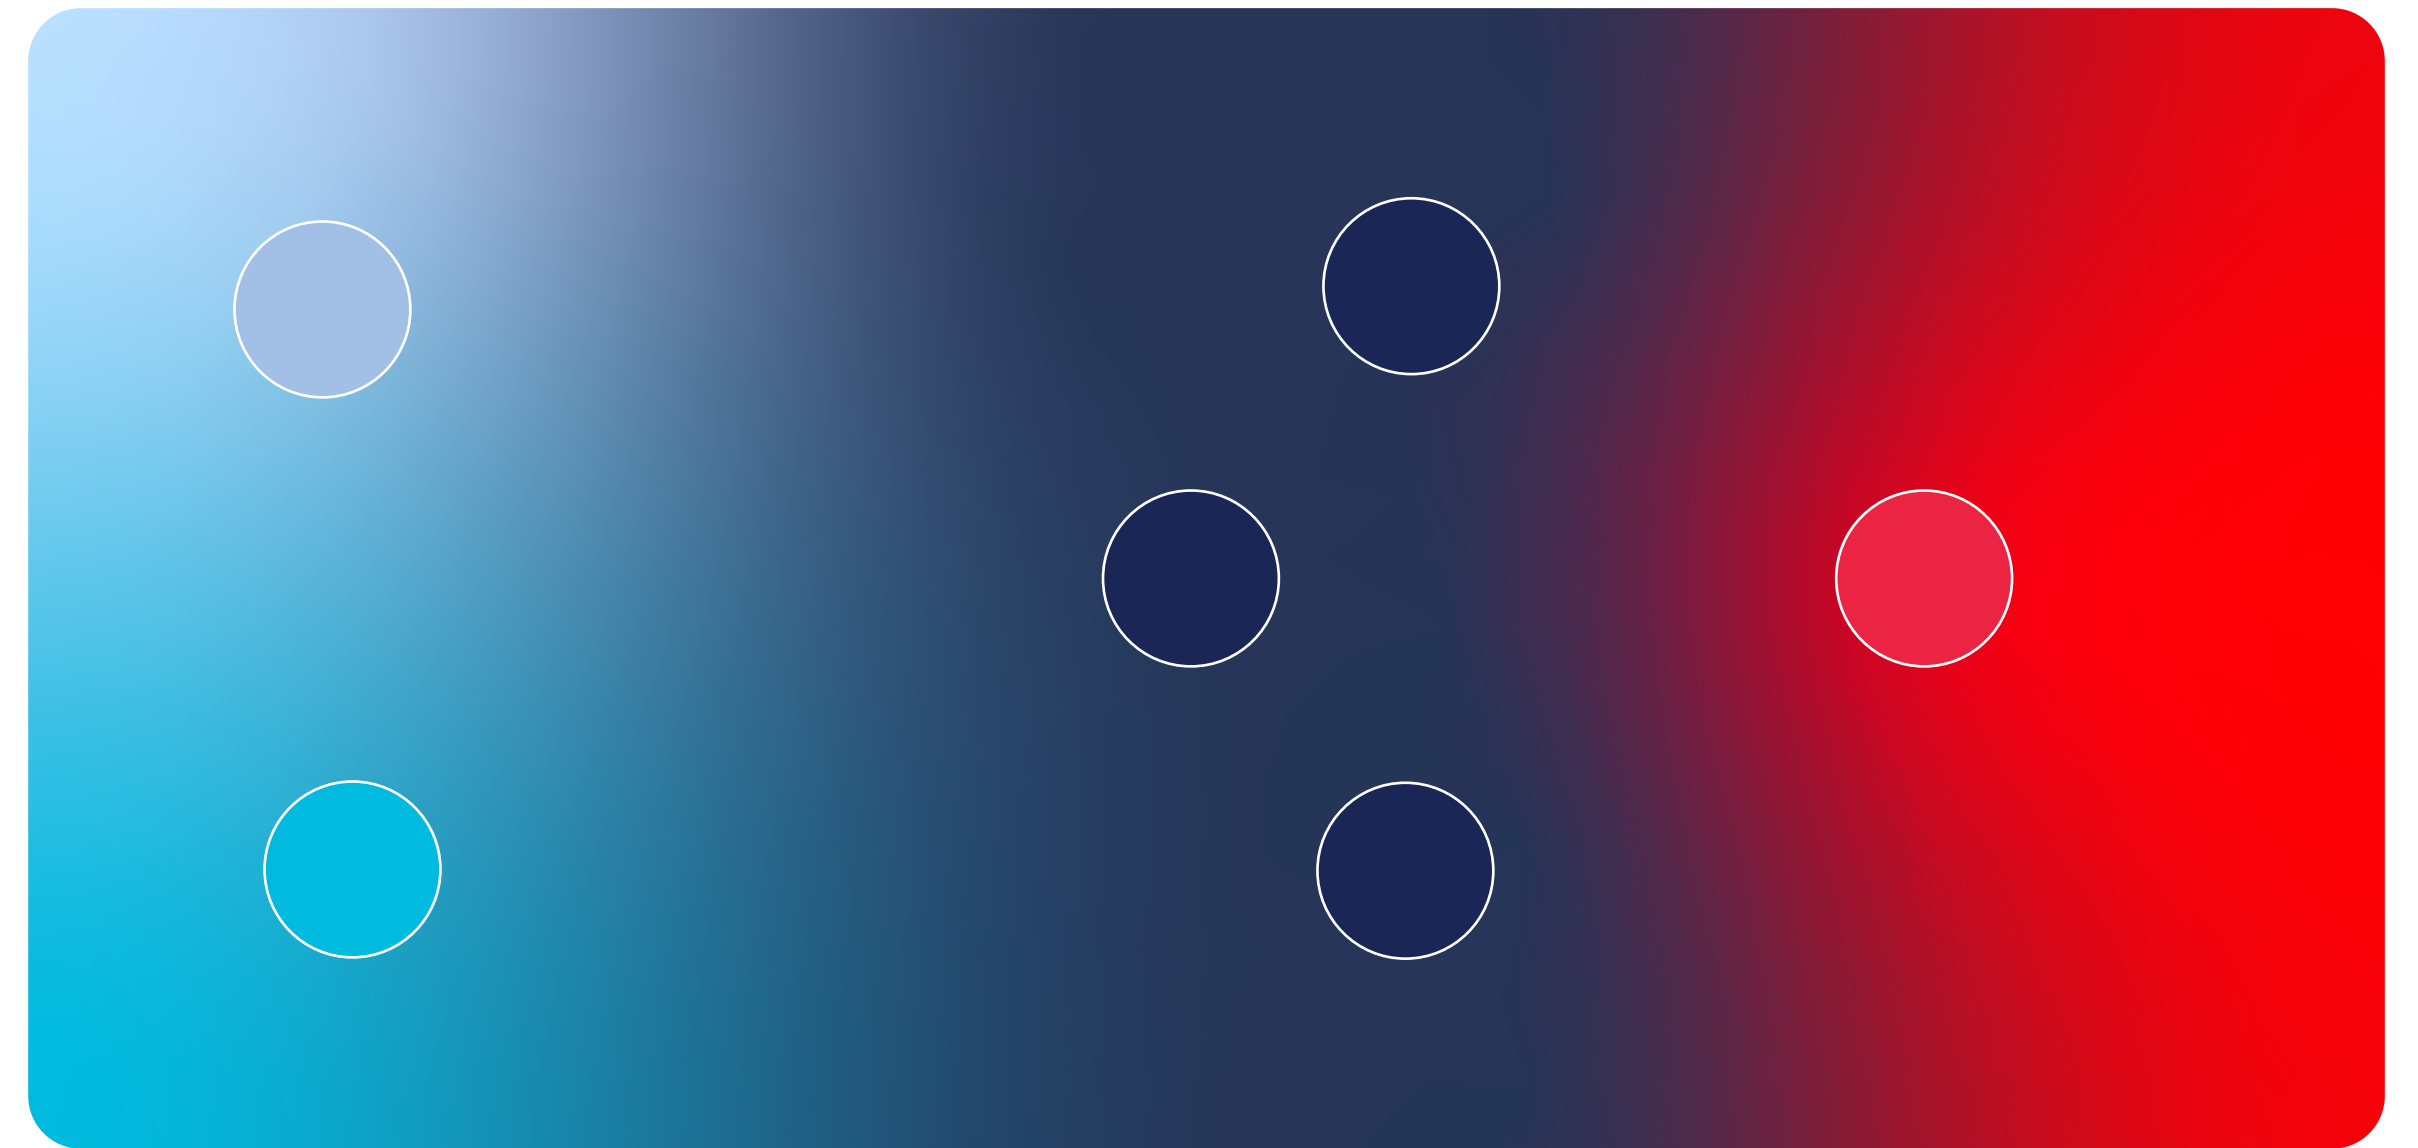

Secondary Gradients

Freeform Gradients

4 Colors

This gradient system features a collection of Freeform gradients with random transitions between the colors, showcasing a versatile range of combinations.

Extar Gradients

Freeform Gradients

2 Colors

This gradient system features a collection of Freeform gradients with random transitions between the colors, showcasing a versatile range of combinations.
